Before an online gathering:

1. You will need a computer, tablet, or smartphone with speaker or headphones. You will have the opportunity to check your audio immediately upon joining a meeting.
2. You will receive notice for a videoconference or conference call from your host. The notification will include a link to “**Join via computer**” as well as phone numbers for a conference call option. It will also include the 9-digit Meeting ID.

To join the gathering:

1. At the start time of your meeting, click on the link in your invitation to **join via computer**. You may be instructed to download the Zoom application.
2. You have an opportunity to test your audio at this point by clicking on “Test Computer Audio.” Once you are satisfied that your audio works, click on “Join audio by computer.”

You may also join a meeting without clicking on the invitation link by going to join.zoom.us on any browser and entering the Meeting ID provided by your host.

If you are having trouble hearing the meeting, you can join via telephone while remaining on the video conference:

1. On your phone, dial the teleconferencing number provided in your invitation.
2. Enter the **Meeting ID number** (also provided in your invitation) when prompted using your touch-tone (DTMF) keypad.
3. If you have already joined the meeting via computer, you will have the option to enter your 2-digit participant ID to be associated with your computer.
